Subject: Road project

I wish to 'chime in' to offer my comments in support of the road along Lynn Canal in the STIP. Please provide full funding for the Lynn Canal Highway project in the STIP.

Thinning out the many people visiting our roadside views will greatly benefit the existing ones by reducing visitors impact on them.

Having the road will give us a much wider area to roam and enjoy the views and recreational opportunities not accessible to us now.

Increasing ferry runs still would not give us access to those areas for fishing, gold panning, etc.

What would Denali park be without a road into the inner reaches? You would have to look at it through binoculars- much like we have to do to see the views now only available from a boat (if we have one or could afford a ferry trip).

Thank you,

Larry Buzzell
